

# Trucking Document Workflow Solutions

## TRUCKING DOCUMENT CHALLENGES

Trucking companies today face a twin challenge of managing driver documentation:

- **Paying Drivers Promptly:** driver turnover has been as high as 200% for trucking companies, so paying drivers as soon as the trip documents are received helps reduce this high rate and minimizes recruiting and training costs
- **Billing Customers Promptly:** the fastest way to get your invoices paid is to submit them as quickly as possible to avoid sluggish cash flow

## TRUCKING DOCUMENT WORKFLOW SOLUTION

Benefits of our Trucking Document Workflow Solution include:

- Paying drivers 100% faster and reducing turnover by 60%
- Cutting AR time-to-cash by 50% and reducing errors/exceptions by 99%

Once trip document workflow software and services are in place, they can be customized quickly and cost-effectively for the following:

- **AP Automation:** outsourced mailroom scanning and workflow automation can cut invoice processing time and overhead by 70-90% and enable automated 3-way matching
- **New Employee/Driver On-Boarding & Credentialing:** ensure all documents are received on-time, every time
- **Claims Processing:** outsourced mailroom scanning and advanced document capture and optical character recognition (OCR) software

There are five components of our Trucking Document Workflow Solutions:
